PUBLIC ADDRESS (PA) SYSTEM
ESSENTIAL COMMUNICATION AND SAFETY FOR VESSELS

CHARACTERISTICS:

MANUFACTURER:
FAIL-SAFE ELECTRIC

PART #:
FSE-PAS

UL LISTED:
YES

DIMENSIONS:
CUSTOM

COLOR:
CUSTOM

CAPABILITIES AND FEATURES:

Ensure clear, reliable communication and enhance safety onboard your vessel with a Marine PA System. Designed specifically for the challenging maritime environment, this system provides the vital capability to broadcast announcements, instructions, and alarms to crew and passengers throughout the ship, ensuring order, safety, and regulatory compliance.

KEY FEATURES:

•**Marine-Grade Construction:** Built with durable, corrosion-resistant materials and components to withstand the harsh conditions at sea, including exposure to saltwater, humidity, vibration, and extreme temperatures.
•**Clear Voice Reproduction:** Engineered to deliver clear and intelligible speech, even in noisy environments like engine rooms or on deck, ensuring that critical messages are heard and understood.
•**Versatile Communication:** Supports broadcasting from multiple points on the vessel (e.g., bridge, control room, key locations) via marine-grade microphones.
•**Integrated with Safety Systems (Optional):** Can be designed to integrate with the vessel's general alarm system (PAGA - Public Address and
•**Reliable Amplification and Loudspeakers:** Provides robust amplification to drive marine-grade loudspeakers strategically placed throughout the vessel for optimal coverage and audibility. Loudspeakers are designed to withstand marine exposure.
•**Emergency Power Capability:** Can be connected to the vessel's emergency power source to ensure continued operation during a loss of main power, critical for emergency announcements.
•**Compliance with Maritime Regulations:** Designed and manufactured to meet relevant international maritime standards (e.g., SOLAS, IMO) and classification society requirements for safety and performance on vessels.

CRUCIAL FOR SAFETY AND OPERATION AT SEA:

A reliable Marine PA System is fundamental to the safe and efficient operation of any vessel, from small workboats to large passenger ships. It is essential for:
•*Broadcasting safety instructions and emergency procedures*
•*Making general announcements to crew and passengers*
•*Providing instructions during docking and maneuvering*
•*Hailing other vessels*
•*Improving on-board coordination and operational efficiency*
•*Meeting maritime safety regulations*

Equip your vessel with a dependable communication backbone. Choose a Marine PA System for clear, reliable, and safety-focused public address capabilities at sea.
